

## Equipment List

- (2) 2500 gallon RO water storage tanks
  - (1) -270 gallon water tank
  - (2) 250 gallon water tanks for feeding
- (1) 55 gallon tank plumbed for mixing nutes
  - (3) 400 gpm water pumps
  - (1) 600' hours role of 3/4" pex water line
  - (6) 3/4" brass pex valves
- Multiple extra PVC fittings and valves for additional plumbing and changes
  - (2) pre filter water filters before the RO system
  - (1) Hydro Logic 1200 GPD RO system
- (1) Water distribution panel to feed each room individual and stir each tank individually for different feeding to each room
  - (6) fully plumbed grow tables with emitters 180 emitters per table
    - (6) 4'x45' fully rolling grow tables
    - (2) 10 ton HVAC units
    - (2) 4 ton mini splits with heat
    - (3) Anden 320 dehumidifiers
  - (2) 225 amp breaker boxes 1 on each room
    - (1) 1200 amp electrical disconnect
    - (1) 1200 amp electric distribution panel
    - (1) 2000 amp transformer
  - (25) 20" Hurricane Pro oscillating fans
  - (54) Gavita Pro series HPS 1000watt grow lights 27 per room
- (1) Gavita Master EL2 light controller controls both rooms and up to 180 lights
  - (4) Fire Extinguishers
  - (6) Fire Exit signs
  - (1) Sannce 4 camera system
  - (2) Aircare humidifiers
- Multiple extra electrical connections and accessories
  - (2) storage racks
  - (1) 3000' role of trellis 4' wide
- (2) PulseOne grown room VPD+ monitoring systems
  - (5) 4'x8' grow trays
  - (1) 380 cone pre roll machine
  - (4) 1000 count Raw cones
  - (4000) pre roll tubes
  - (2) CO2 regulators
- (2) CO2 controllers APC8200 remote and sensor
  - (550) 3 gallon felt grow bags
  - (6) 1000 watt HPS bulbs
- 2" water line ran from meter to building for plenty of volume to building
  - (1) Extra HVAC stand that will hold 2-10 ton HVAC units
  - 1 Set of Certified Scales
